Chinese Bandit Leader Threatens Death  
To Foreigners If Terms Are Not Met

SHANGHAI.—By The Associated Press.—Unless the foreign diplomatic representatives in China government will carry out all the terms fixed by the Chinese bandit in the Shanghai hills, the foreigners held captive will all be killed, Father William Leifer, an aged priest, who conferred with the bandit chief Sunday, reported to the American consul at Shanghai Tuesday.

Father Leifer described the chief, tall, called Wang, as a young man, clean, well-dressed, wearing eye-glasses. The priest persuaded Wang to extend for one day the limit of his ultimatum, which had been fixed at two days from Sunday. Wang told him that the Chinese officials could not do anything to help the bandits, and hence the word of the foreign diplomats must be given.

Commander Wang drafted his terms, which did not demand money.

Germany Ready to  
Leave Reparations  
to World Experts?

BERLIN.—By The Associated Press.—The allied replies to the German offer of May 2 have engendered in official and not-so-official circles a belief that the only path now open to Germany may well be the dispatch of a brief formal note to the creditor powers suggesting that inasmuch as the reich is apparently unable to make concrete and precise proposals, she unreservedly consents to permit a commission of international economists to determine her obligations.

Delegates also Speak on Subject  
of Law Enforcement in City

"An atmosphere of morality which will be a protection to children and the homes of our city," was part of the policy outlined by Mayor J. J. Vorhies in an address at the Monday luncheon of the Federation of Churches, held in the Y. W. C. A. The occasion was the regular business meeting, but an unusual number of delegates were present, including the new pastor of the Calcedonia Street Methodist church, Rev. H. R. Kinley.

Among other remarks, the mayor called attention to the fact that it was a very difficult thing to enforce all laws of the statute books, but that he was going to make an earnest effort. Concluding, he said: "If I go out of office in two years, I will hope to go with the respect of all classes." The address was warmly applauded, after which the following resolution was adopted:

"Hearing with pleasure the statements of the mayor—that he will stand for the best moral conditions in La Crosse; we, therefore, as delegated representatives of the congregations composing the La Crosse Federation of Churches, hereby pledge our cordial approval, and support in carrying out this declared purpose."

NO MURDER CHARGE TO BE  
BROUGHT AGAINST SLAYER  
OF HERBERT LINDEN HERE

No charge of murder will be made or any effort put forth for the return of Dominick Brezette, Indian laborer, who inflicted a knife wound that is believed to have been the direct cause of the death at the La Crosse hospital Sunday of Herbert Linden, according to a statement by Stanley G. Gordon, district attorney, on Tuesday.

## Aggravated Assault

It was the opinion of County Judge Brindley and District Attorney Gordon that it was an aggravated assault, and that in view of the condition of both of the men at the time, there was no intent of homicide as brought in the court hearing. According to testimony at the time of the hearing, Linden's injury was revealed by an X-ray as merely a superficial scalp wound, no mention being made that the knife penetrated the skull.

District Attorney Gordon explained that Brezette had already been held for the assault with intent to do bodily harm, and even though he had been held pending recovery or death of Linden, under the circumstances no further charge could be brought against him.

ADMINISTRATION MEN  
FAVOR AMENDMENT OF  
BLAINE'S TAX BILL

Will Agree to Changes if Passage of Measure Can Be Assured in the Senate

GOVERNOR'S BILL UP WEDNESDAY  
AS SPECIAL ORDER OF BUSINESS

Executive Understood to Oppose Any Amendments to Bill

MADISON, Wis.—With Governor Blaine's general income tax bill about to come to a vote in the senate, administration members of the upper house are expressing themselves as favorable to amendment of the measure if passage can be assured by this course.

Senator Henry Huber, chairman of the joint committee on finance and administration, said that he is willing to stand for amendments providing they do not destroy the purpose of the bill. He expresses himself as of the opinion that the Blaine bill should be saved from defeat by changing its provisions sufficiently to gather the needed 17 votes for advancement.

At least eight amendments will face the governor's bill when it is reached as a special order of business in the senate Wednesday morning.

Acceptance of any one of several of these proposed changes would alter the proposal so materially that opposition senators say it will not be recognized as the Blaine bill. In his special message to the legislature, dealing with taxation, the governor told the members that the measure could not be changed in many of its parts without emasculating the whole bill.

This fact, several administration senators say, should not stop the senate from voting on amendments if amendment will save the bill from defeat.

The opposition to the administration expresses itself as of the opinion that the proposed changes are so drastic and the difference of opinion in the senate so marked that the governor's bill will finally be killed outright.

Senator H. J. Severson and Speaker John L. Dahl have their two income tax bills up for hearing before the joint committee on finance Tuesday afternoon. They say that they are preparing their measures for the legislature should the governor's bill go down to defeat.

SEVENTEEN ARE  
REPORTED DEAD  
IN HOT SPRINGS

Communication Cut Off and  
Only Meager Details of Disaster Trickle Through to Outside World

CLOUDBURST IN MOUNTAINS SENDS  
RAGING TORRENT DOWN UPON CITY

Fire Adds to Horror of the Situation; Whole City Block is Destroyed

MEMPHIS, Tenn.—By The Associated Press.—Reports of heavy loss of life in Hot Springs, Ark., were still unconfirmed early Tuesday after floods which descended in torrents from the mountain slopes and fire which followed the water's wreckage had effected undetermined destruction and cut off that resort from the rest of the world except for meager information which was received here at intervals throughout the night and early morning.

Persistent rumors brought the report that at least seventeen persons were victims of the raging waters or to the flames but no bodies had been discovered when the latest word reached Memphis sometime after the flood had subsided and the flames had been brought under control.

All wires, both telephone and telegraph were out of order and such information as came out of the stricken city was brought by trappers who had left Hot Springs before the floods had reached their peak or by intermittent flashes which came over temporarily restored lines of communication.

A cloudburst belated to have fallen in the mountains shortly before dusk, poured rapidly into the valley, between the hills at whose feet the city nestles and was soon a dangerous current racing through its principal streets. Stores and homes were crushed in, automobiles with their human occupants were whirled away and at least a half hundred negro dwellings in the southern section of the town were borne off on the crest of the plunging stream.

A fire quickly burst out and before the firemen, impeded by the high water, could bring it under control almost an entire city block had been destroyed and reports declared that a number of persons were killed in the flames. The Marquette and Grand Rapids hotels were among the prominent buildings destroyed.

Newspaper and telegraph offices were inundated by the waters and those with the telephone were soon in a state of necessity, abandoned. The work of rescue was being carried out in the streets and many women and children were saved.

21 Die in Texas Twister

COLORADO CITY, Tex.—The death list was increased to twenty-one today by the finding of four additional victims of the tornado which swept Mitchell county early yesterday. More than four hundred were made homeless by the storm.

The path of the storm varied from two miles to a quarter of a mile in width and about thirty miles long. Scarcely a house was left intact. The twister came in the hour before dawn when the country slept. Some houses were carried through the air and replaced on the ground with occupants merely shaken from their beds. Other houses were cut from their foundations the walls and ceiling falling away, leaving families suddenly awakened staring skyward, but none the worse.

## CO-OPERATION BRINGS BETTER RELATIONS IN INDUSTRIAL PLANTS

Survey Made of Sixteen Large Concerns in Which Employees Have Voice in Affairs

CLEVELAND.—Sincerity of purpose, frankness and a desire for right labor relations are the basis of successful employee representation, according to the executives of 16 large manufacturing concerns here all of which have in operation well developed systems of workers' committees with a voice in the affairs of the company.

In a survey of the operation of the plans in these establishments, each of which employ more than 500 workmen, made by a committee from the Cleveland Chamber of Commerce, it is set forth that, while in some instances the plans are limited to promote departmental cooperation, increase efficiency and production, or reduce labor turnover, in most cases a desire to improve relations between employer and employee is the fundamental reason for their installation.

The executives, as a rule, contend that a natural spirit of co-operation must be present before this basis of successful representation can be made actual.

Other outstanding features of the executive's opinion, as reported by the committee, were:

"Advisability of educating employees as thoroughly as possible regarding sound economics in order that they may be assisted to consider labor relations from a sound viewpoint."

"Representatives of employees should be selected by and from their own number and should be assured by their employer that no discrimination will be made against them because of anything said or done in their representative capacity."

"There should be no limitation preventing employee representatives from considering and formulating recommendations regarding any phase of the company's activities, concerning housing, wages, and all other matters properly affecting their relationship."

"The report stated that in most instances in the 16 companies included in the survey, the companies do not attempt to restrict the subjects which employee committees may discuss with the management. Eleven plants permitting unrestricted discussion and five providing for consideration of any subject affecting employment conditions."

Except in one of the plants there is no provision for the arbitration of differences between employees and the management. The committee did not find any instance where there had

ever been a request by the employees for outside arbitration.

In all the plans the committee found that where employee recommendations have been disapproved a full explanation was given.

In eleven instances it was claimed that the employee representation had improved the moral of the organization. Seven executives noted decreased labor turnover. In six cases the executives concluded the plans developed a more intelligent consideration on the part of employees, while in several plants the results were stated to have increased efficiency and production. The development of intelligent leaders among employees, the promotion of the employee's own education, and the production

## Here's a popular way to serve Kellogg's Bran—greatest health food!

Most every one who realizes how effective Kellogg's Bran is for the permanent relief of constipation has their own particular way of serving this wonderful cereal. Most families eat it as a cereal with milk or cream. Others sprinkle it on their favorite hot or cold cereal. Every one enjoys its nut-like flavor!

If you are cooking a hot cereal try this method:—Measure out two table-spoons for each member of the family. Mix it with the cereal and cook as you always cook the cereal.

Kellogg's Bran is scientifically prepared and ready to eat, but its regulatory powers are in no way impaired if you cook it with other cereals.

Kellogg's Bran has won the friendly recommendation of physicians because it does give prompt and permanent

relief from mild or chronic constipation and because it can be eaten without forming a habit. Again, Kellogg's Bran will free you from drastic, dangerous cathartics.

When constipation conditions exist in your system when you are threatened, do not take half-way measures. Foods with a partial bran content cannot free you! What you must have is Kellogg's Bran because it is ALL BRAN! Go the limit; get relief!

Every member of your family will delight in eating Bran raisin bread, muffins, pancakes, macaroons, etc. Recipes on every package.

Start eating Bran to-day! Get well—keep well—keep disease out of your home! First-class hotels, clubs and restaurants serve Kellogg's Bran in individual packages. All grocers.

## **Boy Scouts to Have Big Camp- ing Meeting With Cere- monial in Evening**

On Saturday evening, May 19, at 7:30 o'clock, all Scouts in the city of La Crosse are expected to assemble at Pettibone park, where a Council Fire is to be held. The program for the evening will be the opening fire ceremony, presentation of the Council Charter, by Dr. W. E. Bannan, member of the regional committee of the national council, to P. J. Iversen, acting president of the local council. Following this will be the presentation of charters to the troops, and certificates to the individual boys by John C. Burns, Scout commissioner.

After the presentation of these certificates, the camp officials for the year will be introduced. These officials include Joseph Boswell, camp adjutant; S. E. Hughes, swimming instructor and life saver; and Dan Young, Bear camp fire director.

A typical camp fire program will then be put on by members of last year's campers. Dan and two of his relatives will put on a real Indian pow-wow. The program should close at nine o'clock, and all Scouts, tag-alongs, and friends are invited to be present.

## **CHINESE BANDIT LEADER THREATENS DEATH TO FOREIGNERS**

Guaranteed from page four.

The bandit leader, who threatened death to foreigners, was a Chinese named Eddy Elias, who was captured by the Chinese police.

## **Talks With Prisoners**

"Then I begged to see the prisoners. First they brought in Leon Friedman. He looked well and sat down and talked to me for a quarter of an hour. He then called Eddy Elias, since he talks German. Elias also was well. After then was brought in a young man, self-proclaimed. Next the young man was captured because his right leg was infected and badly swollen. The condition of it looking serious. When he asked for medicine, the bandit told him a doctor was coming to see Chevalier Mison and Italian attorney of Shanghai."

"I talked to the prisoners, told them that what was being done and explained the demands of the bandits."

## **Pleads for Modification**

"Then I resumed my conference with the chairman. He absolutely refused to modify his terms. He declared that if his demands were not met in three days he would kill all. He added that the foreign diplomats must guarantee his requirements."

"The chairman then ordered that the terms be drafted. A Chinese called Yung read me a translation of the draft and handed it to me for transmission to the diplomats."

## **Urges Rail Protection**

WASHINGTON.—A demand that the Chinese government take immediate steps to guard the principal government railways, especially the Peking-Hankow and the Peking-Hankow lines has been made by the diplomatic corps in Peking.

A commission of foreign military officers has been created to further protect life and property. The commission will investigate measures taken by the Peking government to protect the Chinese railways from a recurrence of outrages and similar to that at Lincheng.

The state department today made public a note which the dean of the Peking diplomatic corps handed the acting minister of foreign affairs yesterday. It said: "The diplomatic body, with a view to the protection of their interests and to safeguard the lives and property of their nationals, have appointed a commission of foreign officers who will be entrusted with the duty of investigating the measures taken by the Chinese government to protect the government railways from a recurrence of outrages similar to that which has occurred at Lincheng."

## **MAYOR IS FOR BEST MORAL CONDITIONS IN CITY HE SAYS**

(Continued from page one)

administration, in so far as it concerns a unification of the many factions of our city life which have been developed partly for political ends in days past. It is satisfying to think of an executive who takes into account the good and bad opinions of all classes. If his moral interest in children will include the many young folk of high school years and older who have come to our city, often unattended, but who need to be protected from questionable mercenary amusement amusements, then we think he will prove a real benefactor, not only to La Crosse homes but to others in the state."

Another said: "In demanding the service of the mayor in sustaining high standards of morality for the youth, our citizens should not overlook the fact that example and precepts in the home are as equally necessary. Such debasing practices as prevail in some of the public dance halls and some of the gambling habits which are so difficult to control would never exist were there not suggestion of these vices in the homes. Disregard of law is a menace to society, whether it be in the gambling practiced in homes or in the huge illicit schemes of bootlegging carried on in the dark alley ways of the slums."

# **AGNES STRAND WITH WEEK-END RUSH LANDS IN SECOND PLACE IN SHOP GIRL CONTEST VOTES**

STANDINGS in the Tribune-Majestic Shop Girl contest, published Tuesday for the first time since the announcement of the first count on Saturday, show that the week-end was rather quiet for most of the contestants, with the exception of two hitherto inactive workers, Miss Agnes Strand of Gordon's drug store and Miss Ethel Ebner of McClelland's, who suddenly popped up into second and fourth place.

## **Leader Keeps Pace**

The leader, Bobbie Kopp of the La Crosse hotel, kept her place at the top by adding a healthy total to her votes. Esther Johnson, New York Day Works, came in strong but was shoved down to third place by Miss Strand's rush.

About half of the contestants gained some votes, and the rest, apparently, are either taking it easy or else holding back for a quick climb later on.

The Contest Editor advises contestants not to hold back too long. It may have a bad effect on a contestant's supporters and cause a shift of allegiance if they find their entry looking like an also-ran in the early stages of the contest.

## **Sanatorium Interested**

In the meantime, however, a substantial sum is piling up from the efforts of the contestants to win the handsome rewards offered for La Crosse's most popular shop girls for the Oak Forest Sanatorium Good Fellowship club. The patients at the sanatorium are taking a lively interest in the race, having already selected their favorites whom they are boosting in every way. They are heartily appreciative of the pleasure they expect to receive from the movie outfit which the contest is planned to provide for them, and President Hagenbath of the club says that they look upon the shop girl contestants as benefactors because of the efforts they are extending in their behalf, knowing that every two votes adds ten cents to the movie fund.

## **Closes May 20**

With the contest only in the warming up stage, it looks as if things will be pretty hot by the closing days of the race, which ends May 20 at 9 p. m. The results will be announced at the Majestic theater as soon as possible after the last count is complete, and published in the Tribune the following day. The contest is held by the Tribune and the Majestic in connection with the film "Only a Shop Girl," which opens at the Majestic May 27. Valuable rewards have been offered by local businessmen for the winners, as follows:

1. Choice of a diamond ring or wrist watch offered by E. W. Parker.

2. Spring or summer frock, Fred W. Kruse Co.

# **QUESTIONS PURPOSE BACK OF CALL FOR RAIL CONFERENCE**

## **Men Signing Call Scored by Railroad Official in Talk to Grain Dealers**

CHICAGO, Ill.—The purpose of the call for a national transportation conference in Chicago recently issued by Senator La Follette and other "progressives" in congress and a number of governors, was questioned Tuesday by F. W. Sargent, general solicitor for the Chicago and Northwestern railroad, in an address before the Illinois Grain Dealers' association.

Mr. Sargent declared that some of the men signing the call for the government "have been chiefly responsible for inflicting the public mind against constructive measures that would produce efficiency in operation and reduction in rates."

He asserted that the chief factor in the present prosperity has been the enormous expenditures of the railroads for equipment and supplies.

## MINNEAPOLIS HOTEL TO INSTALL RADIO PLUG IN EACH ROOM.

MINNEAPOLIS.—In keeping with the rapid progress of the radio movement, it will soon be possible to "listen in" from rooms of a large hotel here, which has contracted for the installing of each of several hundred rooms with radio plugs. The guest will be able to invest in a receiving set, as headphones may be used for a small fee from the clerk's office.

According to the plan of engineers who have worked on the scheme for several weeks, a massive aerial and three power receiving stations will be equipped in one of the top floors of the hotel. Each room will have a radio plug connected to one of the three receiving sets. Feasibility of the plan was proved recently when more than 100 rooms listened in on the concert.

The guest who wishes radio entertainment may call the office and a set of phones will be sent to him. The contract for the plug, the set and the receiver until released by the hotel manager, thus insuring against theft by an unscrupulous guest. A small fee is added to the hotel bill for the use of the receiving phones.

## Bulgaria Lost in War—But Enjoys Best Conditions in the Balkans

By WILLIAM PHILIP SIMMS  
NEA Service Writer.

SOFIA.—Czar Boris III is the luckiest king in Europe. He knows just where he stands with regard to war settlements, being the one and only ruler in this terribly stricken corner of the globe who does.

Bulgaria, let off lightly by the reparations commission for her part in the world war, is today in the best position of any country in Europe so far as getting back on her feet is concerned.

If she plays her cards right she will be on par with a short ten years, and on a par with fifty more, Bulgaria is the one country I have

not yet visited—and I have studied conditions in seven continental nations before coming here—where there is a bit of hope in the air. For the others, even for the victorious powers, there is nothing ahead as far as the mind's eye can travel save debts, debts and more debts.

**Gets Off Easy**  
From 2,250,000,000 gold francs by way of reparations demanded of her by the allies, Bulgaria has been let off with only 500,000,000. And that is in run for 60 years with light payments the first ten years scaling up to 10,000,000 annually, where they will stay the remainder of the time, Bulgaria could not pay the two

and a quarter billions. She can pay the lesser sum. Particularly as the payments are light for the present. Business men and bankers here are jubilant. They are again confident and say they can do business, now that they know what the morrow has in store for them.

Exchange reacted instantly to this clearing up of the reparations situation. Thirty days ago the leva was 175 to the dollar. As I write it is 134 and rising in value constantly.

**Exchange Rises**  
Americans here, particularly the officials who live on a fixed and rather small dollar income, are beginning to feel the pinch. Prices are still on a 175 leva to the dollar basis, and the amount they receive is constantly dwindling.

The reparations commission has not wiped out the 2,250,000,000 gold franc claim against Bulgaria. After the 60 years have passed, or in case

Bulgaria backs down at any time on her bargain, the commission reserves the right to demand the original sum. In short, the commission holds the larger claim as a club over Bulgaria's head.

Bulgaria's trade about balances, even now. She exports considerable tobacco, wheat, maize, hides, barley, cotton of roses, etc., and her imports are very simple. Her population is 80 per cent peasant and they make their own clothes to a large extent of home-grown wool, while they raise pretty much all they eat. The balance should be largely in her favor soon.

Czar Boris' prime minister, Alexander Stambuliski, is of peasant stock and is a self-educated man of tremendous force. His "different" ways of going after what he wants has won him the respect if not a certain measure of friendship with Yugoslavia and Rumania. Stambuliski's fight has been uphill. Bulgaria is still at odds with Greece over Thrace.

With communists forming the second largest party in Bulgaria and with radicals, democrats, socialists and others outside the agrarian, or she, like the rest of the central Stambuliski party, he has only a bare working majority in parliament.

His putting over the reparations settlement, however, will strengthen him. Czar—or King—Boris is popular with the people despite the fact they are not enthusiastic monarchists. King Boris does not interfere with the government and so gets along swimmingly. He lets Stambuliski, the bull-like premier, run the show. If left alone, Bulgaria will stay put for some time. But in case of another European upheaval, Bulgaria would no doubt join in. For the rest of the central Stambuliski party, he has only a bare working majority in parliament.

"Go In Gardiner Gateway, Out Cody"

Another week, or more, in Colorado! Can you imagine a more wonderful vacation?

The motor-trip through Yellowstone Park can be made in 42 days, but you should stay longer. Some people remain a month. Nowhere else, they say, can they pass time so happily. The cool, pine-laden air, the fishing, the extraordinarily varied scenery, the delightful social life—these are attractions which draw tens of thousands annually to this enchanted land. The standard Park tour costs \$54 if you stay at the hotels; \$45, at the camps.

Colorado—only 26 hours distant— is as satisfying, in its way, as Yellowstone Park. Rocky Mountain (Estes) Park—a summer paradise—is but a few hours distant from Denver. So is Colorado Springs, nestled at the foot of Pike's Peak. The round trip to and thro the "Royal Gorge" can be made in a day from Denver or Colorado Springs.

## SHELVES OF BOOKS TODAY LINE WALLS OF FAMOUS SALOON

"Nuf Ced" McGreevy, Proprietor of Baseball Hang-out in Boston, Turns to Literature

BOSTON, Mass.—By The Associated Press.—"Nuf Ced" McGreevy and his Third Base saloon have turned to literature. Bibles and classics and baseball trophies have given way to books. The famous old barroom near the old South End grounds of the Boston Nationals has been transformed into a branch of the public library.

Michael T. McGreevy for 20 years owned and managed the Third Base and his patrons were chiefly ball players and fans. He spent no time in the saloon when a ball game was in progress here, for he was a king of rosters, powerful of voice and dynamic in personality. Even after the South End grounds had become a memory he remained faithful to baseball, searching his interest in the American League, he followed the Red Sox at his own expense on many trips around the circuit and on many of their spring training tours. He became known throughout the country as "Nuf Ced McGreevy, grand exalted ruler of Rooster's Row." At last a Red Sox manager recognized his title by giving him a uniform and a regular contract as a "non-playing player."

Baseball, bats, photographs of baseball heroes and other trophies covered walls and ceiling of the barroom. The

electric lights, frosted globes made to simulate baseballs, were suspended from the ceiling by bats which had been used by such historic personages as Cy Young, Freddie Parent, Nap Lajoie, Buck Freeman and Mike Kelly. The grandfather clock at the rear of the room had a bat for pendulum, weighted with a baseball.

The building of Beaves Field and the later advent of prohibition ended Mr. McGreevy's business activities in the old line, and now he has leased the premises to the library trustees. The room has been lined with book-cases and in place of the bar and rail are comfortable tables and chairs.

The first patron of Third Base under the new regime was a locomotive fireman who brought back a book about radio which he had borrowed from the former quarters of the library branch and asked for a book on astronomy.

## FRENCH GOVERNMENT AFTER GOLD HIDDEN AWAY BY PEOPLE

Bill Proposes Hoarded Gold  
Shall be Taken by Govern-  
ment at Double Value

PARIS—Gold hoarded by the French in their traditional "underground" would be drawn out of hiding to aid the government through a bill introduced in parliament by Deputy M. Meunier. He proposes that gold which on the world market is worth more than twice its nominal value, should be taken by the government at twice its nominal value. This, he thinks, would give France additional sound money to stem the fall of the franc and strengthen the country's credit.

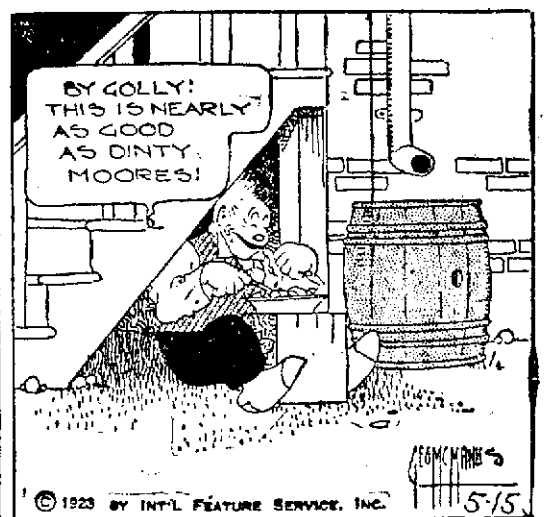

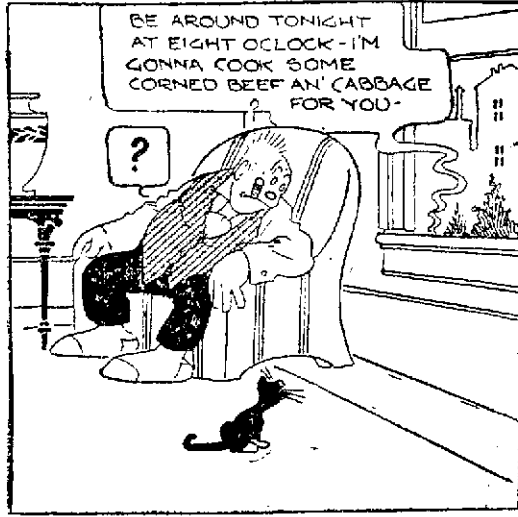

France called in all gold early in the war, and more than a billion and a half francs were obtained in this way. Many financial experts think, however, that the French, who have always preferred "hard money" to paper, must have kept most of their savings for a rainy day. France belongs to the Latin monetary union, with Belgium, Italy and Switzerland, and their monies were interchangeable until differences in the exchange during the war naturally caused each country's money to travel homeward. After the war, France and Switzerland withdrew their silver from circulation in the other country.

How much gold the French still hoard seems to be a matter of speculation, for gold of other countries that circulated here before the war, may very likely still be here. Traffic in gold coins is a penal offense, yet the trade goes on, and from time to time offenders are caught hoarding or selling it for smuggling out of the country in order to benefit by the exchange.

### BRIBERY IN FOOTBALL

BRISTOL—It's almost as easy to bribe English football players as it is to bribe the Free Church assembly. The Free Church assembly has charged officers of \$250 a man are known to have been made, one speaker declared. He estimated there are about 500,000 bookmakers in the country—those annual winnings total \$750,000,000.

## BRINGING UP FATHER—

## CLAIMS POCAHONTAS WAS ONLY NICKNAME OF INDIAN PRINCESS

Real Name of Virginia Girl Who  
Saved Life of Captain Smith  
Said to be Matoaka

NEW YORK—What was the name of the Indian princess of early colonial days who saved Captain John Smith from execution?

"Pocahontas," would be the answer from almost any American school child versed in American history.

And "wrong" would be the retort of E. H. Leech, of Greenwich, Conn., who has started a movement to have history textbooks altered in their stories of America's most famous native princess.

"Little tomboy," The princess' real name, Mr. Leech declares, was "Matoaka."

Of more than a dozen prominent educators whom Mr. Leech wrote concerning his discovery, it was news to all save one, he said. The one was Harris Hart, superintendent of public instruction of the state of Virginia, who wrote Mr. Leech that Pocahontas had been recognized by her real name of "Matoaka" in her native state, although most folk even there clung to the diminutive "Pocahontas."

Among the authorities Mr. Leech cites is a document written in the script of William Strachey, secretary of the Virginia colony, who arrived

with Lord Delaware in 1610. He wrote:

"Pocahontas, or Matoaka, the daughter of Powhatan, is married to a discrete English gentleman, Master Rolfe, after she had renounced idolatry and been baptized."

Strachey added that Pocahontas was the "little name" given to children in accordance with an old Indian custom, although she was called Matoaka "at more ripe years."

Mr. Leech also cited the inscription on a painting by Simon de Passe, done shortly after she had made her triumphal entry into England in 1616 as John Rolfe's wife. The inscription reads:

"Matoaka, alias Rebecca (her hap-

pismal name), daughter of the powerful prince Powhatan, Emperor of the Virginias."

### SMALLER ROOMS REDUCE DEMAND FOR CARPETS

BERLIN—By The Associated Press.—As Germans moved into smaller living quarters, because of high rentals, the need for floor coverings declined proportionately. At the same time prices continued high on account of the heavy import duties on raw materials, and out of both these conditions there resulted a buyers' strike. People dispensed with new carpets, or got along with what they had before.

Now carpet prices have fallen from

one-third to one-half, but even so a domestic covering nine by twelve feet costs the equivalent of \$100, and there are few buyers.

All household furnishings bring good prices today in Germany, and many former officials of the old government have sold their apartment leases and furnishings for enough

money to pay their way to some distant part of the world where life is begun anew.

## From Oil Derrick to Service Station

THE Standard Oil Company (Indiana) Service Station with its modern conveniences, economical operation, scientific management and quick, courteous attendants, is the last link in that complete chain of service, whose first link is the derrick in the oil fields.

The Service Station visualizes the thrift, the attention to detail, care in handling products and avoidance of waste, which are conspicuous in every branch of the Company's activities in producing, shipping, refining and distributing. These methods insure rigid economy in operation, thus enabling the Company to maintain a low price for its products.

The Service Station is the one link in the long chain which the motorist sees. It is the point of contact between the Company and the motoring public.

In locating these stations, extreme care is taken to see that they are so placed as to meet the convenience of the motorist. That this care is appreciated is made manifest by the increasing demand for extension of these facilities.

It is the ambition of this Company to have a Service Station so located that you can secure your requirements of its products, when and where you need them.

The next time you drive up to a Standard Oil Company (Indiana) Service Station, observe carefully the way it is arranged, the facilities offered for your convenience, the high type of men acting as attendants, and the care and thoroughness with which they serve you.

By doing this you will be able to visualize that intangible factor—the ideals of service animating the 27,000 men and women who go to make up the personnel of this Company.

# STINNES BREAKS WAY INTO CONFERENCE OF WORLD SHIPPING MEN

Forces Recognition as Representative of Hamburg-American Line

LONDON. The Hamburg American line, under the leadership of Hugo Stinnes, is about to re-enter the shipping trade of the world, claiming its full share. This is the result of a meeting of the representatives of all the great shipping lines of the world held in London last week, at which Herr Stinnes put in a dramatic appearance.

The conference was called to consider freight rates, division of the lines of trade, etc. Representatives of British, American, French, Italian and other nationalities were present when Herr Stinnes, who was not invited, walked in as a representative of the Hamburg American line.

There was some angry talk and threats to eject the German magnate, but Herr Stinnes sat tight, saying in effect:

"Very well. If you exclude me, it means a rate war, and at the present standard of German currency and German wages I can run my ships cheaper than any of you."

## TWELVE-YEAR-OLD GIRL IS HELD AS LIQUOR RUNNER

IRONWOOD, Mich.—How a 12-year-old girl has for a long time been acting as an alleged liquor runner from Hurley, Wis., over the state line into Michigan, was revealed Monday when officers took into custody the young daughter of Joe Casanova of Hurley as she was delivering a gallon of alleged moonshine in Ironwood.

The child had been making so many trips that the officers began to investigate and the arrest resulted.

With the girl's assistance Casanova has been doing a thriving business, officials say.

## SCHUMANN HEINK GIVES GREATEST CONCERT OF YEAR

Audience at Normal School Captivated by Wonderful Singing and Other Artists

By H. MARGARET JUSTIN

No more superb artists have ever appeared in La Crosse than that wonderful singing soprano, Schumann Heink, who last night, at the Normal School, gave the tribute to the anniversary of the school's founding, a concert which was a perfect blend of singing, piano, and other instrumental music. Miss Schumann Heink has a beautiful voice, and her singing was a perfect blend of singing, piano, and other instrumental music. Her voice was a perfect blend of singing, piano, and other instrumental music. Her voice was a perfect blend of singing, piano, and other instrumental music.

The program was a succession of the songs everyone wanted to hear. Sing, "Brahms' Wiegenlied," "The El King," "My Heart at Thy Sweet Voice." One might well imagine that the Normal School was a concert hall. Schumann Heink was gracious and friendly and most generous with her voice. "Sixty-two years of living and loving," as she herself has summarized her life, has given her a breadth of human sympathy and understanding, the personality which brings her gift of song close to the heart of every listener.

Katherine Hoffman, who has for years been associated with Schumann Heink, played excellent accompaniment for her. The third member of the group is a violinist, whom Schumann Heink gave presented to the audience as "the star of the company." Florence Hardeman, Miss Hardeman was very popular with the audience being cordially applauded and recalled each time she played. A light fleet, and technical ease are the marked characteristics of this artist.

Mrs. P. L. Cline, local manager for the concert, is sincerely to be congratulated upon its success.

homes this year than at any other previous time. Not every one who makes an announcement as to the "ideal wall" is a conservative. That is, we receive an inquiry from one person in a hundred that intends to build, this would indicate that two billion four hundred thousand new of brick for constructing small buildings are now being talked of and considered in the United States.

Referring to brick construction, Mr. Stoddard said that the United States Bureau of Standards recently made an announcement as to the strength of the "ideal wall" as compared with a solid brick wall. The "ideal wall," he explained, was developed from within the common brick industry to provide a lower cost building material for constructing small buildings.

Although by the use of this wall the manufacturer will sell one-third less brick for each house built, it is believed that by reducing the cost of brick construction many more brick homes will be built.

The wall is constructed by laying bricks on edge instead of on their flat bed, making a hollow wall.

The Bureau of Standards announces that when loaded eccentrically the eight-inch "ideal wall" is about 25 per cent stronger than a solid brick wall of the same thickness. Mr. Stoddard said, "When the load is applied centrally, each type of wall has about the same strength."

# SACRED WORDS ARE SET TO JAZZ TO CONVERT HEATHEN

Missionaries Adapt Syncopated Airs to Work of Spreading the Gospel

CHICAGO.—Ragtime and "jazz" may be working to the detriment of Young America but their syncopated strains are winning converts to Christian ideals in Timbuctoo, Tibet and Tahiti, according to Paul Rader, evangelist and president of the Christian and Missionary Alliance, the international conference of which here May 15-23 will bring missionaries from all parts of the world.

"American jazz music is used by our more than 100 missionaries to attract the attention of and assimilate the most savage people in our field," he evangelistic speaker. Mr. Rader said, "Our missionaries carry no arms, but through musical instruments and their voices, raised in song and prayer by their work of converting the heathen. Sacred words are put to modern jazz songs, noble thoughts to popular tunes, and then sung with a spirit that attracts the black, yellow and brown races."

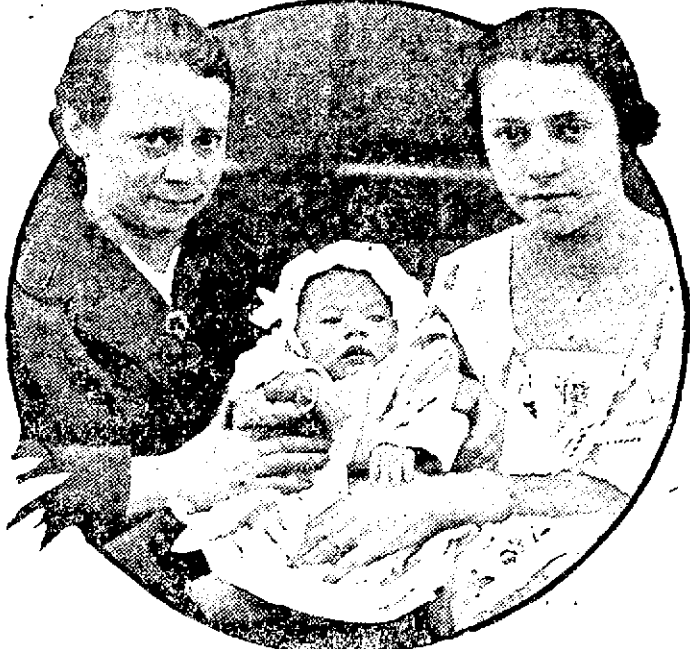

"All sorts of hymns are sung, but we find that the rhythm of ragtime tunes delights the savage mind of the savage, appeals to his thimble-brained mind, and the first thing the missionary knows the wild man is singing Christian words, learning white religious theology and presently is converted."

# IMMELL TAKES OVER STATE GUARD DUTIES FIRST OF THE MONTH

Will Make Headquarters in Madison Unless Bill to Move Office Becomes Law

MADISON, Wis.—Ralph M. Immell, 28, youngest man in the United States to be appointed adjutant general, will take over his new duties on June 1, according to current information at the capitol. Mr. Immell leaves this week for Washington where he will confer with national guard officials. It is understood. The new adjutant general will make his headquarters in the state capitol unless the Price bill to remove the adjutant general's office to Camp Douglas becomes a law. Although approved by the senate is doubtful. The Price bill would also reduce the salary of the adjutant general from \$5,000 to \$4,000 a year. Assemblyman Clinton Price urges the removal of the office on the ground that it would centralize the national guard and that it would make more room available in the crowded capitol building.

## YANKS TRIP TIGERS IN TWELVE INNINGS

Bengals Tie Score in Ninth With Five Runs; Score is 16 to 11  
DETROIT.—After having a seven run lead erased, forcing the game into extra innings, New York fell on Saturday Johnson's offerings. In the twelfth, scored eight runs and defeated Detroit, 16 to 11, on Monday.  
Cobb's strategy in removing Cole in the twelfth when two men were on bases and sending Johnson, a right hander, to replace him, proved disastrous. Plip's home run with the bases loaded was one of the five hits the Yankees made off Johnson.  
The Yankees pitched well until the seventh when a walk and three errors netted three runs. The Tigers' five runs that tied the score in the ninth resulted from doubles by Trist and Jones, singles by Cobb and Bessler and a base on balls to Bell.

## BECKETT REGAINS HEAVYWEIGHT TITLE IN ENGLISH RING

LONDON.—By the Associated Press, Joe Beckett Monday night knocked out Dick Smith in the seventh round of a bout for the heavy-weight championship of England.  
It was another case of age against youth. Beckett started the fight by forcing Smith around the ring with the object of tiring out the older man. Smith held Beckett well in hand early and in the tenth landed three terrific rights to Beckett's jaw and at the same time had him groggy.  
Smith was fighting hard in the eleventh, but it was apparent that he was fast tiring. He conserved his strength, however, and continued to hold his advantage through the fifteenth round. In the sixteenth Beckett began to force the pace. In the seventeenth, although Smith

# WITH THE MAJOR LEAGUES

CHICAGO, Ill.—By The Associated Press.—The New York Yankees have gone a field the strongest teams of the American League in the west with a win that has bewildered those who saw them in their new stadium.  
Taking Monday's game from Detroit, 16 to 11, in a twelve inning nightmare the Yankees ran the string of their invasion to four victories and one defeat—two of the wins over Cleveland and the one loss to Detroit from whom they have taken the other two games.  
Washington, a tough customer in the stadium, aided the Yankees last week by holding off the Tigers while the Yankees were triumphing. Cleveland, who kept out so helpful while the Yankees were beating the jungle tribe, Walter Johnson had an off day Monday and the Senators again were smashed by Cleveland 6 to 3.  
By strapping the White Sox, 5 to 0, Philadelphia passed into third place above the Tigers, who occupied second a part of last week.

# WITH THE MAJOR LEAGUES

CHICAGO, Ill.—By The Associated Press.—The New York Yankees have gone a field the strongest teams of the American League in the west with a win that has bewildered those who saw them in their new stadium.  
Taking Monday's game from Detroit, 16 to 11, in a twelve inning nightmare the Yankees ran the string of their invasion to four victories and one defeat—two of the wins over Cleveland and the one loss to Detroit from whom they have taken the other two games.  
Washington, a tough customer in the stadium, aided the Yankees last week by holding off the Tigers while the Yankees were triumphing. Cleveland, who kept out so helpful while the Yankees were beating the jungle tribe, Walter Johnson had an off day Monday and the Senators again were smashed by Cleveland 6 to 3.  
By strapping the White Sox, 5 to 0, Philadelphia passed into third place above the Tigers, who occupied second a part of last week.

## BECKETT REGAINS HEAVYWEIGHT TITLE IN ENGLISH RING

LONDON.—By the Associated Press, Joe Beckett Monday night knocked out Dick Smith in the seventh round of a bout for the heavy-weight championship of England.  
It was another case of age against youth. Beckett started the fight by forcing Smith around the ring with the object of tiring out the older man. Smith held Beckett well in hand early and in the tenth landed three terrific rights to Beckett's jaw and at the same time had him groggy.  
Smith was fighting hard in the eleventh, but it was apparent that he was fast tiring. He conserved his strength, however, and continued to hold his advantage through the fifteenth round. In the sixteenth Beckett began to force the pace. In the seventeenth, although Smith

**"GIMME"**  
Gaston Glass started acting when he was five, and with no less a personage than Sarah Bernhardt. Then he went to the Paris Conservatoire, where he took the comedy prize at fourteen. His first big American screen success was as the soulful young violinist in "Humoresque". Since then he has been kept so busy that he couldn't have gone back to Paris, if he had wanted to—and there's no evidence that he does.

Having played juveniles for nine years he is now beginning to play the "young husband," and it is such a role that he has in Rupert Hughes' newest offering, "Gimme," in which Helene Chadwick plays the wife. This is the story, written by Mr. and Mrs. Rupert Hughes, of the young wife who has to keep on asking her husband for money, and her final capture of a regular allowance. It is done in the inimitable Hughes style, made famous by such pictures as "Scratch My Back," "The Old Nest," and "Remembrance." It will be shown at the Majestic Theatre for three days beginning Thursday.

## CASINO WEDNESDAY

Although Tully Marshall has a role in "Too Much Business," which will be shown at Casino Theatre on Wednesday, in which he shows a great dislike for children, or rather a fear of them, he is very fond of them. The minute he was out of range of the camera his whole personality changed and he spent his entire odd-time entertaining some fifty odd youngsters in the production. "Too Much Business" is adapted from Carl Perry Bizzers' Saturday

Evening Post story, "John Henry and the Restless Sex." It is a picture different from the average and one that is sure to appeal to every person.

## "RUSTLE OF SILK"

A barrel organ almost upset the equilibrium of the players in the studio at Hollywood, Cal., when it made its first appearance there recently for a scene in "The Rustle of Silk." Herbert Brenson's first Paramount picture, featuring Betty Compson and Conway Tearle, which will be shown at the Rivoli Theatre for four days beginning Wednesday.

Someone found the organ in a corner and started playing it. Immediately everyone within hearing distance stopped work and rushed out to see where the sound was hidden.

A barrel organ is a relative of the handorgan. It is played in every city and town in England and not infrequently a disabled veteran of the World War is seen playing one, hawking songs at a penny each. This is the purpose of the instrument in the picture.

## CASINO TODAY

One of the biggest and most sensational thrillers ever recorded by a motion picture camera can be found in "Down to the Sea in Ships," the feature attraction at the Casino Theatre today.

This scene shows where Raymond McKee, who plays the leading male role in this production, becomes a while, and later the wounded and angry monster of the deep turns upon the small boat and catapults the occupants into the water, smashing the boat to kindling.

## BRITISH STEAMER HELD

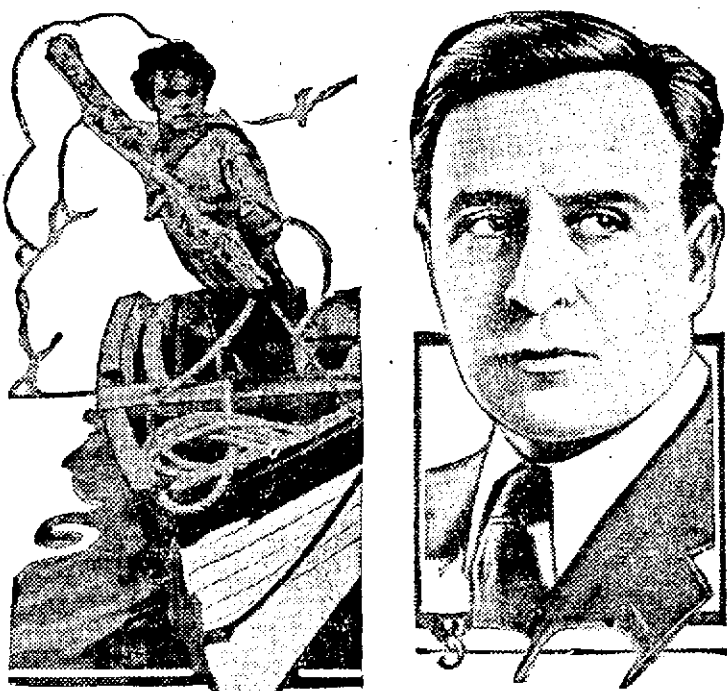

NEW YORK—Customs officers Monday seized the British registered steamer "Yankton" as she steamed into port and headed for quarantine. The grounds for holding her were not disclosed.

The Yankton was last reported sailing from Havana on February 8. Since then she has been sighted off Montauk Point at various times in the vicinity of Rum Row.

## FEEL LIKE A CHAMP? BUT YOU MUST LOOK LIKE ONE!

NEW YORK—If there are two stalwart champions in America who are qualified to take the place of any ancient Greek athletes in a match, let them step forward, Mlle. Suzanne Roillard, of Paris, who arrived on the Mountian, says she will be delighted to look over any applicants.

"I am hunting two athletes for my movie," she said on Sunday. "They must be Americans. They must look like champions. One must be huge and ugly with tremendous shoulders and many hairs on his chest. The other must be quite an Adonis, beautiful in figure."

Mlle. Suzanne wrote the scenario in collaboration with Maurice Huet from his book, "Menaces Le Thebain."

## BOY FALLS FIVE STORIES; BREAKS 4 CLOTHES LINES

NEW YORK—Joe Viola, 5 years old, fell five stories from the roof of his home Sunday night with no serious results than a fractured ankle.

The child lost his balance while playing on the roof. He struck four sets of clothes lines while falling, bounding from one to the next and landed on his feet.

A policeman sent Joe to the Reception hospital.

RUGBY.—By The Associated Press.—One hundred years ago, the "Rugby" game of football was evolved during the course of a game at Rugby school, which has just erected a tablet to commemorate the event. The inscription reads:

"This stone commemorates the exploit of William Webb Ellis, who with a fine disregard for the rules of football, as played in his time, first took the ball in his arms and ran with it, thus originating the distinctive feature of the Rugby game. A. D. 1823."

# DECLARE WAR UPON SUMMER FURS TO SAVE WILD ANIMALS

Campaign to Check Slaughter of Fur-bearing Species is Launched

NEW YORK.—By The Associated Press.—War is declared against the fashion of summer furs, which is expected to reach the peak of popularity this summer, in a circular issued by the American Blue Cross society, with headquarters in Springfield, Mass. The purpose of the campaign is to check the slaughter of fur-bearing animals, which threatens total extinction of the wild animals if the craze maintains its present pace, says the society.

According to information given out by this organization the 1923 styles will not be limited to neck pieces and trimmings for summer wear as in former seasons. There will be entire coats of fur, and other coats with fur trimmings to go along with millady's parasol and straw sailor.

The society is seeking the concerted support of social leaders and publicists to put summer furs in the discard. The same body will be remembered by its fight upon vivisection, calling for an "open door policy" in experimental laboratories.

One of the advanced coat styles consists of jet black monkey fur, colored with American ermine. "Fur Jacques" will be in vogue, besides

male pelts having trimmings of chipmunk, monkey, fox and squirrel. The Paris stylists recommend fur trimmed hats and sunshades.

The "call to arms" reads in part: "Every right-minded person should protest against such monstrosities of fashion violating the laws of health and comfort, causing wastage that involves needless sacrifice of fur-bearing animals, and, perverting every true sense of beauty and propriety."

WOULD COLOR POISONS

LONDON.—Distinctive colors for poisons have been asked of the general medical council by the privy council. Strychnine, it is proposed, should be a "brilliant green." Suitable dyes also should be added to sheep-dip and weed exterminator, states the privy council's petition.
